1. A growing spirit of sabotage to avoid dismantling and transport of factories to the U.S.S.R. is spreading in the Russian Zone. In the Dresden area there have recently been seven outbreaks of fire, caused by sabotage. The Dresden authorities are offering rewards, without success, for any information on saboteurs.
2. The Fein-Spinnerei Fabrik Klaus in Flöha, near Chemnitz, was set on fire early in November by saboteurs; according to information received by source, it was to all intents and purposes completely destroyed.
3. Source believes returning PWs from the U.S.S.R. are responsible for the sabotage; he believes this to be organized incendiarism and not individual efforts.
